WEDNESDAY EVENING DECEMBER 5.

THE CLIMATES OF JAPAN. - Japan is a land of mountains and valleys, and it has as many different climates as the United States. You may find your Minnesotain Yezo, your Florida about Nagasaki, and over all you will find the green of old Ire land. Surrounded by the sea, the air is ever full of moisture, and even in winter the land is green. It is a land of fiswers. I saw camellia hedges like trees near Yokohama. There are acres and quarter sections of water about Tokio covered with lotus flowers as big as a round five cent loaf of American bread and surrounded by green discs, can bread and surrounded by green discs, each of which is as big as a paimleaf fan. The wisteria here grows wild and Japan is the land of the carysanthemum. This flower forms the crest of the mikado, and the poetic nature of the Japanese people is shown in their love for flowers. They have their development the state of the stat their flower shows three times a mouth and when trees blossom the whole nation goes wild Flower peddlers are everywhere and Tok o is a city of gardens -Frank G. Carpenter's Letter

CANNON HARPOONS FOR WHALES -Steamers hunt the whales in this lati ude The harpoon is made with four umbrella like ribs, which is fired from a causen on the ship into the whale's body. Pressure makes it open up and take a wider and firmer hold, and the whale pulling sets off some nitro-glycerine confined in the cone or front part of the harpoon. With all this the whale sometimes runs for many miles, drawing after it the ship, often at the rate of sixteen knots an hour, and marking its course with blood. Two thousand feet of heavy rope are fastened to the barpoon, but this, as inblood. Two thousand feet of heavy tope are fastened to the harpoon, but this, as londicated, does not allow sufficient play for the great moneter, which is often seventy to eightly five feet long, and weighs 100,000 pounds. Afterward, when the whale is dead or nearly 80, an iron chain is put around its body and it is towed into the harbor of the fishing company —Hammerfest

General Manager, CHAS W. CUNNINGHAM,

PERECTORS.

Hon. M. C. BUTLER

The capital stock of this company is \$625,000, divides rate 625,000 shares of \$1 each.

The company is incorporated under the laws of West Virginia, and the stock is non-assessable, and carries with it no personal liability to the holder.

THE GOLD MINING COMPANY (location Music Mountains, A. T.) is a sound a mining enterprise as was ever placed on the market and its possibilities have never been exceeded. Every share should double to value within a year, and they may quadruple, as they are based on property that would ordinarily have been capitalized ten (10) times as great on account of its known richness and promise

The shares are made small so that any one can invest. Subscriptions for five shares are as welcome as those for hundreds.

Every dollar of earnings will go to the stockholders in dividends, as there is nothing else that they can be used for. A Wisewell mill, capacity 20 tons per day, with powerful machinery,

has been purchased and will be on the ground ready for creation at the mine within the next thirty days The solid basis upon which the company is founded and the practical proofs of the richness of the mine have already secured the confidence

of the public, and the stock has steadily advanced in selling value Within the last few days bona fide sales have been made AT PAR. There is no better stock on the market for a permanent investment
